(Neurology)

1. Short answer question (**any four** out of five) : (4x5=20)
- a) Draw and label cross section of spinal cord at the level of Pons.
 - b) Management of a case of Myasthenia Gravis.
 - c) Clinical features, investigations & management of Carpal tunnel syndrome.
 - d) Classify epilepsies and describe an attack of Grand Mal seizure.
 - e) Enumerate various speech disorders and write in details about Wernicke's aphasia.

SECTION – B (20 Marks)
(Paediatrics)

2. Short answer question (**any four** out of five) : (4x5=20)
- a) Describe motor milestones till the age of 3 in children.
 - b) Clinical features and management of Kwashiorkor.
 - c) Causes, management and complications of Neonatal sepsis.
 - d) Clinical features & management of a case of Myelomeningocele.
 - e) Clinical features, investigations and management of tuberculous meningitis in children.

51312 A

Third BPTH (2012), Winter 2015

Medicine – I

Total Duration = 2 Hours

Total Marks : 40

Instructions:

- 1) Use blue/black ball point pen only.
- 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 3) **All** questions are **compulsory**.
- 4) The number to the **right** indicates **full** marks.
- 5) Draw diagrams **wherever** necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
- 7) Use a common answerbook for all sections.

1. Short answer question (**any five** out of six) :

5x3=15

- a) Physiological changes due to aging.
- b) Rheumatoid arthritis.
- c) Enumerate long term complications in diabetic patient.
- d) Diagnosis and treatment of hypothyroidism.
- e) Treatment of megaloblastic anaemia.
- f) Alcohol dependence.

2. Short answer question (**any five** out of six) :

5x5=25

- a) Treatment of ischaemic heart disease.
- b) Clinical features of congestive cardiac failure.
- c) Treatment of mitral stenosis.
- d) Treatment of COPD.
- e) Treatment of pulmonary tuberculosis.
- f) Treatment of empyema.

Instructions:

- 1) Use blue/black ball point pen only.
- 2) Do not write anything on the **blank portion of the question paper**. If written anything, such type of act will be considered as an attempt to resort to unfair means.
- 3) **All** questions are **compulsory**.
- 4) The number to the **right** indicates **full** marks.
- 5) Draw diagrams **wherever** necessary.
- 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
- 7) Use a common answerbook for all sections.

Section "A"

(Neurology)

(4x5=20)

1. Short answer question (**any four** out of five) :
 - a) Describe vascular supply of Brain.
 - b) Clinical features of Duchenne's Muscular dystrophy and its management.
 - c) What are clinical features of Tuberculous meningitis and discuss its sequelae ?
 - d) Describe symptoms and signs of cerebellar ataxia.
 - e) Clinical features, investigations & management of a case of peripheral neuropathy.

Section "B"

(Paediatrics)

(4x5=20)

2. Short answer question (**any four** out of five) :
 - a) Clinical features & Management of allergic bronchial asthma in children.
 - b) Clinical Features and Management of Marasmus.
 - c) Etiology and Clinical Manifestations of Cerebral Palsy.
 - d) Moro reflex.
 - e) Clinical manifestations and complications of Measles.

**Third B.P.Th. (New) Examination, Summer 2014
MEDICINE**

Total Duration: Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION – B & SECTION – C

- Instructions :**
- 1) Use **blue/black** ball point pen only.
 - 2) **Do not** write anything on the **blank portion of the question paper**. If written anything such type of act will be considered as an attempt to resort to unfair means.
 - 3) **All** questions are **compulsory**.
 - 4) The number to the **right** indicates **full** marks.
 - 5) Draw diagrams **wherever** necessary.
 - 6) Distribution of syllabus in Question Paper is only meant to cover entire syllabus within the stipulated frame. The Question paper pattern is a mere guideline. Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) **Use** a common answer book for **all** Sections.

SECTION – B

(30 Marks)

2. Answer the following (**any five** out of six) :

(5×3=15)

- a) Management of acute exacerbation of bronchial asthma.
- b) Management of acute myocardial infarction.
- c) Ventilator associated Pneumonia.
- d) Baclofen.
- e) Occupational lung disease.
- f) Jones Criteria.

3. Answer the following (**any three** out of four) :

(3×5=15)

- a) Diabetic peripheral neuropathy.
- b) Subacute sclerosing panencephalitis (SSPE).
- c) Give clinical features and complications of Tuberculous Meningitis.
- d) Pseudobulbar palsy.

P.T.O

SECTION – C

(30 Marks)

4. Discuss etiology, clinical features and diagnostic investigations and management of Acute cerebrovascular accident (CVA) (1x15=15)
- a) Clinical features 3
 - b) Diagnostic investigations 5
 - c) Management 7
5. a) Acute Rheumatic Fever, etiology, clinical features and management (1x15=15)
- i) Define and Types 3
 - ii) Clinical features 5
 - iii) Management of one and life style modifications recommended. 7
- OR
5. b) Emphysema discuss (1x15=15)
- i) Etiology 3
 - ii) Clinical features 5
 - iii) Differential diagnosis and Complications. 7
-

Questions can be asked from any paper's syllabus into any question paper. Students cannot claim that the Question is out of syllabus. As it is only for the placement sake, the distribution has been done.
 - 7) **Use** a common answer book for **all** Sections.

SECTION – B

(30 Marks)

2. Answer the following (**any five** out of six) : (5×3=15)
- a) Bells palsy.
 - b) Tetralogy of Fallots.
 - c) Classify Cardiac Arrhythmias.
 - d) Pneumoconiosis.
 - e) Mitral Stenosis.
 - f) ECG changes of Acute MI.
3. Answer the following (**any three** out of four) : (3×5=15)
- a) Cerebellar signs.
 - b) Duchennes muscular dystrophy.
 - c) Syringomyelia.
 - d) Myotonia.

P.T.O.

SECTION – C

(30 Marks)

4. Discuss clinical feature, differential diagnosis and treatment of GBS. (1×15=15)
- a) Clinical feature of GBS. 5
 - b) Differential diagnosis of GBS. 5
 - c) Treatment of GBS. 5
5. a) Describe the etiology, clinical feature, investigations and treatment of Bronchiectasis. (1×15=15)
- i) The etiology of Bronchiectasis. 5
 - ii) Clinical feature of Bronchiectasis. 5
 - iii) Investigations of Bronchiectasis. 5
- OR
5. b) Describe the etiology, clinical features, investigation and treatment of Mitral stenosis. (1×15=15)
- i) The etiology of Mitral stenosis. 5
 - ii) Clinical features of Mitral stenosis. 5
 - iii) Investigation of Mitral stenosis. 5

Third B.P.Th. (New) Examination, Winter 2013
MEDICINE

Total Duration : Section A + B + C = 3 Hours

Section B & C Marks : 60

SECTION – B & SECTION – C

- Instructions:** 1) All questions are compulsory.
2) The number to the **right** indicates full marks.
3) Draw diagrams wherever necessary.
4) Do not write anything on the **blank portion of the question paper**.
If written anything, such type of act will be considered as an attempt to resort to unfair means.

SECTION – B

(30 Marks)

2. Answer the following (any five out of six) :

(5x3=15)

- a) Central cyanosis.
- b) Status asthmaticus.
- c) Isoniazid prophylaxis in tuberculosis.
- d) Management of streptococcal pneumonia.
- e) Asbestosis.
- f) FEV1.

3. Answer the following (any three out of four) :

(3x5=15)

- a) Transverse myelitis. ✓
- b) Brain abscess. ✓
- c) Meningioma. ✓
- d) Trigeminal neuralgia.

SECTION – C

(30 Marks)

4. Describe causes , pathogenesis and clinical features and management of thrombotic stroke.

(1x15=15)

- a) causes 3
- b) pathogenesis 5
- c) management 7

P.T.O.

5. a) Discuss etiology of sub-acute bacterial endocarditis. Mention clinical features and management of it. (1x15=15)
- i) Discuss etiology of sub-acute bacterial endocarditis. 3
 - ii) Clinical features 5
 - iii) Management 7

OR

5. b) Discuss etiology, clinical features and complications and management of myocardial infarction. (1x15=15)
- i) Discuss etiology 3
 - ii) Clinical features 5
 - iii) Management. 7
